

Toolless RJ45 Plug

Toolless RJ45 Modular plug

Part No.: **790482**

With this Toolless RJ45 Plug from Intellinet Network Solutions, there is no need for a crimping tool. Simply strip about 15 mm off the cable, select either T568A or B wiring style, place the wires in the corresponding color-coded slot and close the boot onto the cable. When the boot is closed over the IDC connectors, it pushes the wires into place and makes the connection.

Features:

- RJ45 plug
- Toolless connector
- TIA/EIA-568-B.2, ISO/IEC11801 and EN50173-1
- Compatible with 22-26 AWG solid and stranded UTP cables
- Fast and easy installation

Specifications:

General

- For Cat5/5e/6 installations
- Connector accepts 22-26 AWG solid and stranded UTP cables

Compliance

- Meets TIA/EIA-568-B.2, ISO/IEC11801 and EN50173-1 specifications
- Complies with Cat5e patch cord testing performance requirements
- Supports T568 A&B wiring
